# Standard aluminium window sizes – South Africa

Every standard Coetz™ window size, with the lowest price for that size. Width × height in mm, structural opening; the frame is made 10 mm smaller.

## How to read this chart

- Each table is one window type. Columns are widths, rows are heights (both in mm).
- A price means that size is a standard catalogue size; the price is the cheapest design at that size.
- A dash means no standard size – the online estimator prices the next size up and the window is made to fit.
- Every window comes with 6.38 mm clear laminated safety glass as standard; 4 mm or 6 mm float is a cheaper option on windows.
- Windows are supply only and made to order in 1–2 working days. Prices change – the shop always shows the current price.

## Window types in this chart

Top hung windows – 276 sizes, from R1 191
Side hung windows – 73 sizes, from R1 946
Sliding windows – 120 sizes, from R3 192
